## The Dorian St. James Saga

Sonic Movie Performance Webcast

Jacqueline Lichtenberg created the First Vampire, Dorian St. James, for the short story "Through The Moon Gate" for Andre Norton's *Tales of the Witch World* #2, where Dorian falls through a Gate into the Witch World and can walk in sunlight at last.

Then she wondered what this oldest vampire could possibly have done to merit such a reward.

The Dorian St. James Saga explores the events leading up to his reward. Lichtenberg reveals a unique theory of the origin of vampires and gives us a vampire who hobnobs with demons, angels, humans, and others.
