

Nessie's Maze Game Rules Part 2

by Lois June Wickstrom

- 1) Modify the playing board. Use clear sticky tape to place a letter *i* under each green or red dot that does not already have something on it.
- 2) Using the diagram at the left, assemble the puzzle pieces of Loch Ness over the picture of Nessie.
- 3) When a player lands on a dot with an *i*, that player takes a Nessie Fun Facts card off the stack and reads it (or gives it to someone who can read – to read it.) After the Fun Fact has been read, the player removes one of the puzzle pieces of Loch Ness from the picture of Nessie.
- 4) No one may enter Nessie's Grotto until all 8 pieces of Loch Ness have been removed, and the picture of Nessie is completely revealed.
